Background	World Cancer Day is an international day marked on 4 February to raise awareness of cancer and to encourage its prevention, detection, and treatment. World Cancer Day is led by the Union for International Cancer Control to support the goals of the World Cancer Declaration, written in 2008”. Oral Cancer is one of the most significant health concerns in rural India owing to the lack of awareness and delayed diagnosis. Rural Dental College, Loni District Ahmednagar (Maharashtra) is surrounded by the population comprised of local farmers and tribal. Rural Dental College is consistently working on the mission of

	Oral Cancer Mukht district. Our strategy to fight with oral cancer is multifocal and composed of. 1) Community based approach 2) Academics based approach 3) Research based The program organized on the occasion of World Cancer Day was based on our Academics based approach.
--	---

Objectives

- To discuss the current concept in premalignancy and malignancy with the students and faculty members of various Institutions.
- To sensitize the participants towards the importance of early diagnosis of oral cancer.
- To discuss the various non – invasive diagnostic screening methods of oral cancer that can be incorporated in routine clinical setup.

EVENT OVERVIEW

Speaker The lecture was delivered by eminent speaker and researcher **Dr Divya Uppala**, (MDS, LLB, MSC Biotechnology) Professor and Head, Department of Oral Pathology and Microbiology, Gitam Dental College, Visakhapatnam (Andhra Pradesh)
